POLARPAM

In 1977 the ISPG acquired the library of Dr. Nicholas Polunin, the distinguished botanist and ecologist. Dr. Polunin spent many years in the arctic as a member of various exploring and botanical expeditions, and is the author of several works on these regions, including the prestigious "Botany of the Canadian Eastern Arctic" in three volumes, published between 1940 and 1948 as a National Museum of Canada bulletin. His library includes some two hundred and thirty works on the arctic, many of them rare and valuable.

We feel sure that this collection will be of considerable interest to scientists and others with an interest in the north, and will prove to be a most valuable addition to our library. You are invited to visit the library and inspect these books at any time. Please telephone Marian Jones or June Graff at 284-0301 if you require further information.
